

Global Awareness

Here are some challenge suggestions that other Rangers have done.

Here's an inspirational way to raise money for CWFF!

The Kalinago people of the Carib region of Dominica use the Larouma plant to weave baskets, hats, mats and all sorts of things. Learn a little about their craft and think about those we do here in Canada. People all over the world have similar ways of expressing themselves, but what is the difference between doing crafts for domestic use and doing them for fun? What crafts do you do? Why not use your skills to raise money for Guides in Dominica? With your unit, make some crafts and find a venue for your sales through Guiding or community events. You can even set up your own "Dominica Day" to feature the country and sell your products. Send all the money you raise to CWFF.
